

  
**AMERICAN  
LEGION  
AUXILIARY**  
Minnesota  
Girls State

It's that time of year again! The American Legion Auxiliary is eagerly planning their 78th Session of Minnesota Girls State. We are looking forward to sponsoring a junior student(s) from your school to attend this program. We will be focusing on government, female empowerment, leadership, and the 250th birthday of our nation. This week-long program will be held at Bethel University from June 14-19, 2026. We encourage all responsible young women to apply. There is NO COST to the student and/or their family. All registration fees are covered by your local American Legion Auxiliary unit who sponsors your student(s).

Attached to this email, we are sending this video along with more information. Please share this information to your principals, guidance counselors, and civics teachers. We have Auxiliary members who would love to come and give a Girls State presentation to all interested young women in your classes. Please reach out to our staff below to schedule a visit from your local unit.

We would love to have one or more of your students partake in this great program and have the opportunity to meet like-minded students from across our great state of Minnesota. We look forward to hosting a student(s) from your school this summer. If you have any questions or concerns, please call any member of our staff.
